FIRE BEHAVIOR FORECAST

FORECAST NUMBER 4	TYPE OF FIRE Surface
FIRE NAME Detwiler	OPERATIONAL PERIOD July 21,2017 24 HOUR
DATE ISSUED July 20, 2017	TIME ISSUED 2000 HOURS
UNIT: CALFIRE Madera-Mariposa-Merced	SIGNED Geoff Marshall FBAN-t

INPUTS

Weather Summary: Slightly warmer and drier than the past two days. Very persistent conditions. See Fire Weather Forecast

OUTPUTS

FIRE BEHAVIOR

GENERAL

The fire is primarily burning in a mix of grass, grassy-oaks, and brush. The fire is bumping into pockets of tree mortality on the North and East sides of the fire. These areas will create additional spotting issues and a large dead and down component ready for consumption. We are in a persistent forecast and should see burning conditions similar to the last few days. We have seen a slowdown in activity due to smoke shading the fuel and a general reduction of fine dead fuels in the North and North-East sides of the fire. However the fire has, and can travel 4-6 miles a day to the south-east and been actively burning most of the night and the potential for spot fires remains very high.

Optimal Alignment, Peak Burning Conditions

Probability of Ignition = 90-100%

Spotting Distance= up to 1/2 Mi.

ROS 2 - 2.5 mph

Fine Dead Fuel Moisture = 2%

10hr Fuels= 4-5%

Flame Lengths 25 feet plus in brush

Average Conditions

ROS: Grass .1-3/4 mph, Brush .1-1/2 mph **Flame Length:** Grass 1.5-6 feet Brush 2-14 feet

SPECIFIC

BRANCH I

Fire progression will be minimal. Possible interior flare ups. Spot fires outside the line have potential for rapid growth.

Branch VII

Fire has potential to line up with Sherlock Creek and to a lesser extent the Merced River as it follows terrain and where it lines up with the prevailing North wind. If the fire works farther East, it will be in tree mortality areas. Fire is in a very steep, rugged area of the old Telegraph Fire (2008) and has slowed progression in the burn scar.

AIR OPERATIONS

Expect the smoke and inversion layer early to mid-morning

Media Line 562-619-7467

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire personnel cannot provide members of the media with authorization to enter private property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. Do not post:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
